

Evaluation of technology for small scale combustion of pellets from new ash rich biomasses regarding combustion technology and emission reduction in special case particulate matter and Nox (Combustion Characteristics of Ash Rich Pellets)

Participants

- Håkan Örberg and Jan Burvall, Swedish University of Agricultural Sciences (SLU BTK), Umeå, Sweden
- Claes Tullin, Swedish National Testing and Research Institute (SP), Borås, Sweden
- Heikki Oravainen, Technical Research Centre of Finland (VTT) Jyväskylä, Finland
- Peter Quicker and Ralph Berger ATZ Entwicklungszentrum, Sulzbach-Rosenberg, Germany
- Stefan Beer and Ralph Berger University of applied sciences Amberg-Weiden, Amberg, Germany
- Stefan Hajek, Herding GmbH Filtertechnik, Amberg, Germany
- Alfons Fellner, A.P. Bioenergietechnik GmbH, Hirschau, Germany
- Fritz Grimm, Fritz Grimm GmbH & Co. KG, Amberg, Germany
